- How we are of benefit to the community and families
- How many cases we've interacted on
- How many trainings to outside agencies
- Who comes and talks to us
- Overview of agencies involved, maybe our agency list
- Number of juvenile set fires and the dollar loss
- Where to report fires
- What happens when you report fires
- What services come into affect for kids that set fires.
- Number of Firesetting assessments done by Dave
- A success story ie: the Benton County kids

Patrick Tomblin from Safety Threat Assessment Team came to talk to us about STAT.
