- a. Private garages use utility, miscellaneous
- b. Unfinished basements (Group R-3) = \$23.20 per sq. ft.
- c. For shell only buildings deduct 20 percent
- d. N.P. = not permitted

**Example:**  
 4,000 sq. ft. Office Building (Business, Type IIB)  
 4,000 x \$214.08= \$856,320.00

<sup>1</sup> Valuation is determined by the Building Official

<sup>2</sup> One- and two-family new construction and additions shall be based on the ICC Table (OAR 9018-050-0100 (1)(c))

**2. ELECTRICAL PERMITS:**

RESIDENTIAL PER UNIT:

|   |          |
|---|----------|
| 1000 sq. ft. or less .....                  | \$135.00 |
| Each additional 500 sq. ft. or portion..... | \$ 25.00 |
| Limited energy .....                        | \$ 65.00 |

In a multifamily structure, OAR 918-309-0030 (5)(b) requires the electrical permit fee to be calculated by taking the square footage of the largest unit in the building and computing the fee. A fee of one-half of the first unit fee is applied to all additional units in the building regardless of size. In a multifamily structure, OAR 918-309-0030 (3)(b) requires one limited energy permit per building.

Residential remodels, additions, alterations or repairs shall use the lower of the square footage of the area being remodeled/added or the calculated branch circuit fee.

## **PUBLIC WORKS DEFINITION OF FEES**

### **SYSTEM DEVELOPMENT CHARGES:**

System Development Charges (SDCs) are those fees charged to satisfy that portion of new demand on parks, transportation, water, and wastewater services generated specifically by a new development. Adequate funding for growth-driven capital improvements is necessary to maintain health, safety, commerce, and quality of life within a community. In an effort to secure a constant, equitable framework by which SDCs are collected and disbursed the Oregon State Legislature adopted a State law (House Bill 3224) which regulates SDCs.

The bill establishes requirements for the calculation of fees, and specifies that fees collected must be spent on the capital improvement projects for which they have been assessed. The City is required to provide an annual accounting of SDCs showing the amount collected for each system and the projects that were funded.

SDCs are divided into two categories:

- (1) Reimbursement Fees, which pertain to existing capital improvements, or those under construction, and
- (2) Improvement Fees, which pertain to future capital improvements. An SDC can be assessed for either fee category, or for both. Credit may be given against an SDC when a developer is required to construct a qualified public improvement that meets certain conditions.

### **SEWER/WATER/STORM/STREET CONNECTION CHARGES:**

A Connection Charge shall be due and payable when any property connects to the City's sanitary sewers, water, storm drains, and/or improved streets, which no assessment has previously been levied or for which the cost of constructing the sanitary sewer, water distribution facility, storm drain, and/or improved streets has not been paid by the property.

At the time when a development request is initiated, the Finance Department along with the Public Works Department will determine when the sewer/water/storm/streets were built, and how they were paid for to see if a "connection" fee is due. Engineering Services will determine the amount based on the formula in the Municipal Code. **Please call Engineering Services at (541) 917-7676 for more information.**

Prior to planning a development or purchasing a piece of property, it is recommended that a check on the property be completed to see if connection fees are due. These fees will not usually show up as an encumbrance in a preliminary title report.

### **EROSION PREVENTION AND SEDIMENT CONTROL:**

The City of Albany's Erosion Prevention and Sediment Control (EPSC) program has been established as a part of the City's comprehensive Stormwater Management Plan. This plan addresses federal water quality mandates and helps set local procedures to protect the quality of our waterways. The EPSC program is designed to protect local waterways and the City's stormwater system from pollution generated by ground disturbing activities. **Please call Engineering Services at (541) 917-7676 for more information.**

## PARKS AND RECREATION FEES

Parks SDC fees are due and payable upon issuance of a building permit for new on-site residential construction. The fee applies to the particular lot or tract for which it is issued. Any changes resulting in the addition of one or more bedrooms will trigger Parks SDC fees to be paid on the improvement.

The owner of the property shall be given credit only for those Parks SDC fees that were previously paid on the same parcel. No Parks SDC fees shall be imposed if the structure is destroyed by fire, flood, wind, or act of God provided; 1) Parks SDC fees were previously paid and; 2) the number of bedrooms is not increased.

Please call the Parks and Recreation Department at (541) 917-7777 for more information.

|                                       |          |
|---------------------------------------|----------|
| Per bedroom .....                     | \$293.33 |
| Per square foot of living space ..... | \$ 0.56  |

Common Parks Systems Development charge exemptions:

- Additions to dwellings that do not constitute the addition of one or more bedrooms, as defined by the Albany Municipal Chapter 20 Code Section 22.010, are exempt from the Parks SDC, unless the addition constitutes a conversion from another use to a bedroom.
- Garages (attached or detached), and other detached non-habitable accessory buildings are exempt.
- Housing for low income or elderly persons, which is exempt from real property taxes under Oregon state law.
- Multiple unit nursing homes and congregate care of assisted care housing facilities containing three or more housing units and designed for the professionally assisted care of elderly or disabled persons are exempt.
