

RESOLUTION NO. 3363

WHEREAS, the City of Albany has assumed responsibility for the operation of the water system in North Albany formerly operated by the North Albany County Service District; and

WHEREAS, the water system in North Albany includes water mains outside the Albany city limits; and

WHEREAS, a connection policy is required to address requests for water service outside the city limits.

NOW, THEREFORE, BE IT RESOLVED that the connection policy outside the Albany city limits in the North Albany area shall be as follows:

1. No waterline extensions shall be allowed outside the Albany city limits.
2. Service shall be provided only to parcels immediately adjacent to existing waterlines, as the parcel existed on July 1, 1991.
3. One 3/4-inch water meter connection may be allowed for each unserved property adjacent to an existing waterline, as the parcel existed on July 1, 1991.
4. In the event of the partitioning of land, additional 3/4-inch meter connections may be allowed provided the applicant is able to present multiple unused water shares that were not extinguished, invalidated, or acquired by the North Albany County Service District, from one of the non-profit corporate entities that predated the North Albany County Service District. The water shares must be for property that is owned or was formerly owned by the original grantee of the share and which was owned by the applicant on November 17, 1993. Multiple shares are required for connections in excess of that allowed without water shares. For example, two shares are required for one additional connection, and three shares are required for two additional connections. No new parcel, for which a water connection is granted pursuant to this policy, shall be eligible for additional connections upon subsequent partitioning or subdividing.
5. A connection may be made only if the City is satisfied the requested connection, by itself or cumulatively with others, will not degrade water service to any existing water customer, either inside or outside the city limits, or to any future water customer inside the city limits, below minimum standards necessary for domestic and fire safety purposes.

DATED this 25th day of May 1994.
