WHEREAS, the Albany City Council has duly adopted Ordinance No. 4966 declaring their intent to comply with the provisions of ORS 223.207 through 223.208 and 223.297 through 223.314, an ordinance regarding system development charges; and

WHEREAS, a methodology for the calculation of system development charges for the water systems has been developed in 1991 as specifically described in Resolution No. 3072 and reaffirmed in 1993 in Resolution No. 3287; and

WHEREAS, in the interest of promoting economic development, the Council has deemed it desirable to charge less than the legally allowable charges developed in the methodology, while requiring new developments to pay a fair portion of the associated water system development costs. The \$1,845 allowable fee is based on 1991 dollars, which if indexed to current rates is equivalent to \$2,652 (Index Ratio: $7151/4975 = 1.437$); and

WHEREAS, Section 15.16.050(5) of Ordinance 5306 allows for the annual adjustment of the herein established fees in accordance with the change in the *Engineering News-Record* (ENR) Construction Cost Index; and

WHEREAS, the Albany City Council deems it desirable to increase the existing fees to reflect inflation relative to the increase in the ENR Index; and

WHEREAS, the ENR Index used in Resolution 4134 was 6935, and the April 2000 ENR index is 7151 (Index Ratio: $7151/6935 = 1.0311$).
