

TABLE OF CONTENTS

Chapter 1 INTRODUCTION AND BACKGROUND

1.1	Introduction.....	1-1
1.1.1	The Manual.....	1-1
1.1.2	Goal Statement.....	1-1
1.1.3	Disclaimer.....	1-2
1.1.4	Common Acronyms.....	1-2
1.2	Background and Policies.....	1-2
1.2.1	Total Maximum Daily Loads.....	1-3
1.2.2	NPDES Program for Municipal Separate Storm Sewer Systems (MS4).....	1-3
1.2.3	City Municipal Code Title 12.....	1-3
1.3	The Erosion and Sedimentation Processes.....	1-4
	• Soil Erodibility.....	1-4
	• Vegetative Cover.....	1-5
	• Topography.....	1-5
	• Climate.....	1-5
1.4	Impacts of Erosion and Sedimentation.....	1-7
1.4.1	Environmental Impacts.....	1-7
1.4.2	Economic Impacts.....	1-7

Chapter 2 PERMITTING PROCESS

2.1	Albany Municipal Code, Title 12.....	2-1
2.2	Permit Required.....	2-1
2.2.1	Permit Exemptions.....	2-1
2.3	EPSC Permit Process.....	2-2
2.3.1	Initial Site Review.....	2-2
2.3.2	Work Progress Inspections.....	2-2
2.3.3	Permit Close.....	2-2
2.4	EPSC Permit Requirements.....	2-2
2.4.1	EPSC Plan Required.....	2-3
2.4.2	Submittal Requirements for Minor Land Disturbing Activities.....	2-3
2.4.3	Submittal Requirements for Major Land Disturbing Activities.....	2-4
2.5	Wet Weather Conditions.....	2-5
2.6	Owner is Permit Holder.....	2-6
2.7	Permit Duration.....	2-6
2.8	Enforcement.....	2-6

TABLE OF CONTENTS

Chapter 3 EPSC PLANNING AND DESIGN

3.1	Erosion Prevention vs. Sediment Control.....	3-1
3.2	Five Basic rules.....	3-1
3.3	Designer Responsibilities.....	3-2
3.3.1	Soil Survey Information.....	3-2
3.3.2	Climate and Precipitation Data.....	3-2
3.3.3	Topography.....	3-2
3.3.4	Revised Universal Soil Loss Equation (RUSLE).....	3-3
3.3.5	Sensitive Areas; Waters of the State.....	3-3
3.4	Project Scheduling.....	3-4
3.5	Developing an Erosion Prevention and Sediment Control Plan.....	3-5
3.6	Internet Access Sites.....	3-8

Chapter 4 EPSC MEASURES AND BEST MANAGEMENT PRACTICES

List of Tables

4-1	Matrix of Temporary and Permanent Erosion Control Measures and Estimated Effectiveness Ratings.....	4-2
4-2	Erosion Control Matrix Single-Family, Duplex Residential, Manufactured Homes.....	4-3
4-3	Erosion Control Matrix Commercial, Subdivision and Large Site Construction.....	4-4
4-4	Erosion Control Matrix Utilities Construction and Stock Piles/Ditches/Swales Protection.....	4-5
4-5	Ground Cover Application.....	4-13
4-6	Matting Specifications.....	4-18
4-7	Slope Drain Sizes (Pipe Slope Drain).....	4-32
4-8	Rock Protection at Outfalls.....	4-35
4-9	Spacing for Check Dams.....	4-41
4-10	Diversion Dike Design Criteria.....	4-46
4-11	Diversion Swale Design Criteria.....	4-47
4-12	Barrier Spacing for General Application (Sediment Fence).....	4-52
4-13	Sediment Fence Fabric Specifications.....	4-52

Best Management Practices

4.1	Erosion Prevention	4-6
4.1.1	Preserve Natural Vegetation.....	4-6
4.1.2	Buffer Zone.....	4-7
4.1.3	Seeding (Temporary/Permanent).....	4-8
4.1.4	Ground Cover.....	4-12
4.1.5	Hydraulic Application.....	4-14
4.1.6	Sod.....	4-15

TABLE OF CONTENTS

4.1.7	Matting.....	4-16
4.1.8	Plastic Sheeting.....	4-22
4.1.9	Dust Control.....	4-24
4.2	Runoff Control Practices	4-25
4.2.1	Construction Entrance.....	4-26
4.2.2	Tire Wash Facility.....	4-28
4.2.3	Pipe Slope Drain.....	4-31
4.2.4	Outlet Protection.....	4-34
4.2.5	Surface Roughening.....	4-37
4.2.6	Check Dam.....	4-41
4.2.7	Diversion Dike/Swale.....	4-45
4.2.8	Grass-lined Swale.....	4-40
4.3	Sediment Control Practices	4-50
4.3.1	Sediment Fence.....	4-50
4.3.2	Biofilter Bags.....	4-54
4.3.3	Sand Bags.....	4-56
4.3.4	Filter Berm.....	4-57
4.3.5	Wattles.....	4-58
4.3.6	Sidewalk Subgrade Gravel Barrier.....	4-60
4.3.7	Inlet Protection.....	4-62
4.3.8	Dewatering.....	4-69
4.3.9	Sediment Trap.....	4-70
4.3.10	Sediment Basin.....	4-73

Chapter 5 POLLUTION CONTROL MEASURES AND BMPs

5.1	Management of Other Construction Site Pollutants.....	5-1
5.2	Pollution Control BMPs.....	5-7
5.2.1	BMP 1: Dewatering Operations.....	5-8
5.2.2	BMP 2: Paving Operations.....	5-9
5.2.3	BMP 3: Painting.....	5-9
5.2.4	BMP 4: Material Delivery and Storage.....	5-11
5.2.5	BMP 5: Material Use.....	5-12
5.2.6	BMP 6: Spill Prevention and Control.....	5-14
5.2.7	BMP 7: Solid Waste Management.....	5-16
5.2.8	BMP 8: Hazardous Waste Management.....	5-17
5.2.9	BMP 9: Contaminated Soil Management.....	5-19
5.2.10	BMP 10: Concrete Waste Management.....	5-20
5.2.11	BMP 11: Vehicle and Equipment Cleaning.....	5-21
5.2.12	BMP 12: Vehicle and Equipment Fueling.....	5-22
5.2.13	BMP 13: Vehicle and Equipment Maintenance.....	5-23
5.2.14	BMP 14: Employee and Subcontractor Training.....	5-24

TABLE OF CONTENTS

Chapter 6 MAINTENANCE AND INSPECTION

6.1	Erosion and Pollution Control Manager.....	6-1
6.1.1	Ineffective Controls.....	6-1
6.2	Pre-Construction Meeting.....	6-2
6.2.1	Modified EPSC Plan.....	6-2
6.2.2	Construction Schedule Review.....	6-3
6.2.3	Monitoring Form.....	6-3
6.3	Materials.....	6-3
6.4	Installation.....	6-3
6.5	Inspection Requirements.....	6-4
6.5.1	Inspection of Work Restriction Areas.....	6-4
6.6	Stabilization Requirements.....	6-4
6.7	Erosion Control Contingency Items.....	6-5
6.8	Maintenance.....	6-5
6.8.1	Sediment Removal.....	6-5
6.8.2	Sediment Disposal.....	6-5
6.9	Inspector Checklist.....	6-6
6.9.1	Winterization.....	6-6
6.9.2	Designer/Inspector Toolbox.....	6-6
